## WINTER MAGIC ON CAMPUS — INTERNATIONAL STUDENT LIFE IN EXAM SEASON

27 JANUARY 2026

Snow-covered paths, quiet winter mornings, and a campus wrapped in white — this winter brought a special kind of magic to our university. Even though the snowfall arrived during the exam period, it created memorable moments that our international students captured and shared.

Their photos show what studying with us is all about: academic focus combined with quality of life, an international community, and a welcoming campus atmosphere — even during demanding phases of the semester. Studying at our university means more than lectures and exams. It means feeling supported, connected, and at home in a new country — all year round.

To all students in the middle of exams: best of luck – you ´ve got this!

**Ready to start your own story?**

Join our international community and experience student life in every season.
